APPARENTLY ALL CONTINENTS HAVE THE SAME SCENERY OR ARE THE IMAGES JUST THE SAME?
ITS FREE SO WHO CARES? JUST SHOWS THE MANAGER ISNT EVEN BOTHERED TO TAKE SOME SCREEN
CAPS.. Cheap way to kill a few hours really fun at first

. When zooming in, the camera pans to to the right then you have to fight with the camera to show anything else. Refunded this game less than an hour after purchase.. DLC is broken lol dont buy. I completed this "game" in 3.5 hours. It was very slow paced with not a ton to do and the days went on far to quickly.

I would recommend this game if it was under \$5 but at \$13 for just 3.5 hour of game play it just isn't worth it. This game is a piece of art work and I respect that.

-it's unlike anything I have played in the past

-the writing has great potential but often got lost in the boring wandering

-the art style and music are quite nice

This game is a piece of art work and I respect that. At first glance this game looks promising but it's actually repetitive & boring.

2/10

Literally, this is the worst game I've ever played. The optimisation is bad, maps are bad, guns are bad, models are bad and that ♥♥♥♥♥♥♥♥ royalty free music from youtube library. Even if this game was made satirically, I just don't care, because it couldn't be any worse. After like 40mins of playing I had to refund. At least it only costs 90 cents.. Immersion breaking bugs and floaty controls hinder this charming reboot. Honestly, i'm surprised the game was released in its current state. I can overlook the controls to experience this beautiful fantasy setting however I find myself frequently reloading due to minor bugs/hiccups. A common glitch I see deals with interactable/puzzle items. While moving or throwing these objects they may become lodged in an inaccessible area or leave the screen entirely. The world is well crafted but I can't help but wonder if a little bit more effort would have gone a long way.

I guess the world will never know.... If you have 2 hours to burn and achievements to earn, buy this game, preferably on sale.. So. Very. Cute.. This game is fun and frustrating at the same time. I enjoy playing it regardless and definitely rate it one of the better Texas hold em poker games out there..... it's a good game. The real challenge here is how to get 3 heads (Star) in all levels just like other mobile games, get the level done isn't too hard but if you want to get the full star for each level it required some mind juices. Good single player missions with funny storylines. Worth it for the price tag.
